

## **Odyssey Systems Awarded \$9.6 Million SMTS Contract**

(Wakefield, MA) – Odyssey Systems Consulting Group is the sole awardee of the "Spectrum Management Technical Support (SMTS)" contract to provide support to the Navy and Marine Corps Spectrum Center (NMSC) in Alexandria, VA. The ceiling value of the contract is \$9.6 M over a five year period of performance.

The Odyssey Systems-led team has provided industry leading spectrum management support to the NMSC since 1997. Other spectrum management clients include the Air Force Frequency Management Agency (AFFMA) since 1999; the Department of Homeland Security's (DHS) Headquarters Coast Guard since 2002; and the Department of the Interior's National Park Service (NPS) since 2004. Odyssey Systems has provided national level spectrum management expertise that has supported the planning, acquisition, retention, protection and effective use of spectrum resources. This competitive award recognizes the Odyssey team for their outstanding past contributions to the success of the Navy and Marine Corps mission and Odyssey's proposal to provide continuing innovative services to the Navy and Marine Corps Spectrum Center's critical spectrum management mission.

Mike Sweat, CEO of Odyssey Systems said, " With ever-increasing competition for scarce and critical spectrum resources, this award affirms the value that NMSC places on the services we have provided to DOD activities over the past decade. We are excited about our continued relationship to support NMSC's spectrum-related technical requirements. " "This award demonstrates our NMSC's conviction that our commitment to provide leading edge spectrum engineering solutions achieves our client's mission objective." added Kurt Nahser, Odyssey Systems Director of Odyssey's Communication Systems Technologies business unit.

Odyssey's Team members for this award include General Dynamics Information Technology.
